1630 Close

The purpose of this free event is to raise awareness and explore options to improve prevention of drug deaths in Aberdeen.

This will include an overview of the problem at a local level, consideration of prevention options and views of drug users and family members.

This event will bring together strategists, service managers, service providers and service users to explore issues and share views on this important subject.

The Forum hopes this will be an opportunity for service providers and service users to have a voice in the future prevention of drug related deaths in Aberdeen.
